## HIGHEST PREMIUMS

AWARDED AT THE TWO LAST FAIRS OF THE

### South-Carolina Institute for 1850-51.

Every style, every attractive peculiarity the art is capable of making, is here adopted, and one style peculiar to himself, which has not been approached by any artist in the country: it is the flesh tone of coloring, which softens the harsher shadows, and tends to make the sitter look younger and handsomer than in the usual style.

For notices of his skill, by good and artistic judges, he refers you to the following, from the press:

"We would invite especial attention to the Daguerreotype Rooms of Geo. S. Cook, in King, opposite Hasell street, an artist who adds the charm of taste and skilful painting to that of the Daguerreotype, and produces at once the perfect similitude and the elegant picture."—Charleston Courier.

"Cook is indeed an artist; not one made by mere dint of mechanical instruction—but one of fine genius, tasteful conception, and scientific powers of execution. His pictures are indeed admirable in every quality. The tone and finish of his likenesses, the peculiar appropriateness of the position selected, his just idea of the happy moment of expression in the sitter, make them generally the very finest specimens of the art."—Charleston Evening News.

for the cure of

**DYSPEPSIA, LIVER COMPLAINT, NERVOUS DEBILITY,

This medicine is offered to the public under the assurance that there is no article in existence having stronger claims to their consideration. Being compounded by a regular Graduate of Jefferson College, and a practising Physician of Twenty Years' Standing in Philadelphia, his long experience has confirmed him in the opinion that a compounded medicine was required to prevent and remedy the debilitation produced by residing in low, miasmatic climate, and to counteract the prostrating influences of the many nervous disorders with which the human family are afflicted.

Dr. Allen is a well known physician, and has used the above medicine in his practice for twelve years with the most astonishing effect, having tested its qualities in above

## **TEN THOUSAND CASES.**

The effect of this Compound is such as not to interrupt either business or pleasure; requiring only the common restraint of moderation in diet. It is conveyed by the circulating fluids, and corrects their tendencies to all diseases which originate in Diseased Liver, Depraved Appetite, or Predisposition to Affection of the Lungs.

Thousands are lingering upon the brink of the grave, suffering under diseases in some form, whom this medicine would certainly restore to health and society. Its safety and innocence have been fully tested, so that it may be administered to the most helpless and tender infant.

The above medicine has for a long time been used with great success in warding off that Debility and Prostration of Strength which is produced from living in a Southern Climate, or in a neighborhood where Miasmata arises from wet and low lands, Bilious and Intermittent Fevers, also Liver Complaint, which is so often mistaken for Consumption of the Lungs, though if the patient watches himself closely, he may discover the difference. Dr. G. W. Allen is a well known physician of the city of Philadelphia, and has used the above medicine in his practice for the last Twelve Years, the result of which has fully proved that it will CURE **DYSPEPSIA IN ITS WORST FORMS**, and he now offers it to the public under this conviction, and trusts it will meet with that patronage which it so justly deserves.

When the above Medicine is used as directed, a certain cure will be effected in a short time.

Prepared only by the Proprietors, **DR. GEORGE W. ALLEN**, Philadelphia, and **J. A. & W. L. CLEVELAND**, No. 207 King Street, Charleston, S. C., and sold by the principal Druggists in the U. States.

Having suffered for years with Dyspepsia, and been relieved by the above medicine, I take pleasure in recommending it to my friends.
